

SPECIFYING CUTEK® IS SIMPLE

EXTERIOR WOOD

STEP 1 ► PREPARE

New Wood – Clean with CUTEK® Wood Reviver as per manufacturer instructions.

Previously Coated Wood – Strip coating with CUTEK® Wood Stripper to remove the previous coating and clean with CUTEK® Wood Reviver as per manufacturer instructions.

STEP 2 ► PROTECT

Apply minimum of two coats of CUTEK® Extreme with CUTEK® Colortone (if desired), allowing ample time for the oil to penetrate and dry between coats.

For maximum wood protection, we recommend two coats of CUTEK® Extreme.

For maximum colour retention, we recommend two coats of CUTEK® Extreme with double CUTEK® Colortone.

Maintenance

PREPARE: Clean with CUTEK® Quickclean as per manufacturer instructions.

PROTECT: Apply one coat of CUTEK® Extreme with CUTEK® Colortone (if desired).
